

# DIGITALEUROPE

TISP Kick-off 19th of June 2013

# Content

## DIGITALEUROPE Presentation

- Background and Purpose
- Vision & Mission
- Our work

## Vision of the Present

- Examples of Best Practices

## Vision of the Future

International non for profit association based in Brussels.

Represents the European Digital Technology Industry: the information technology, communications technology and consumer electronics sectors.

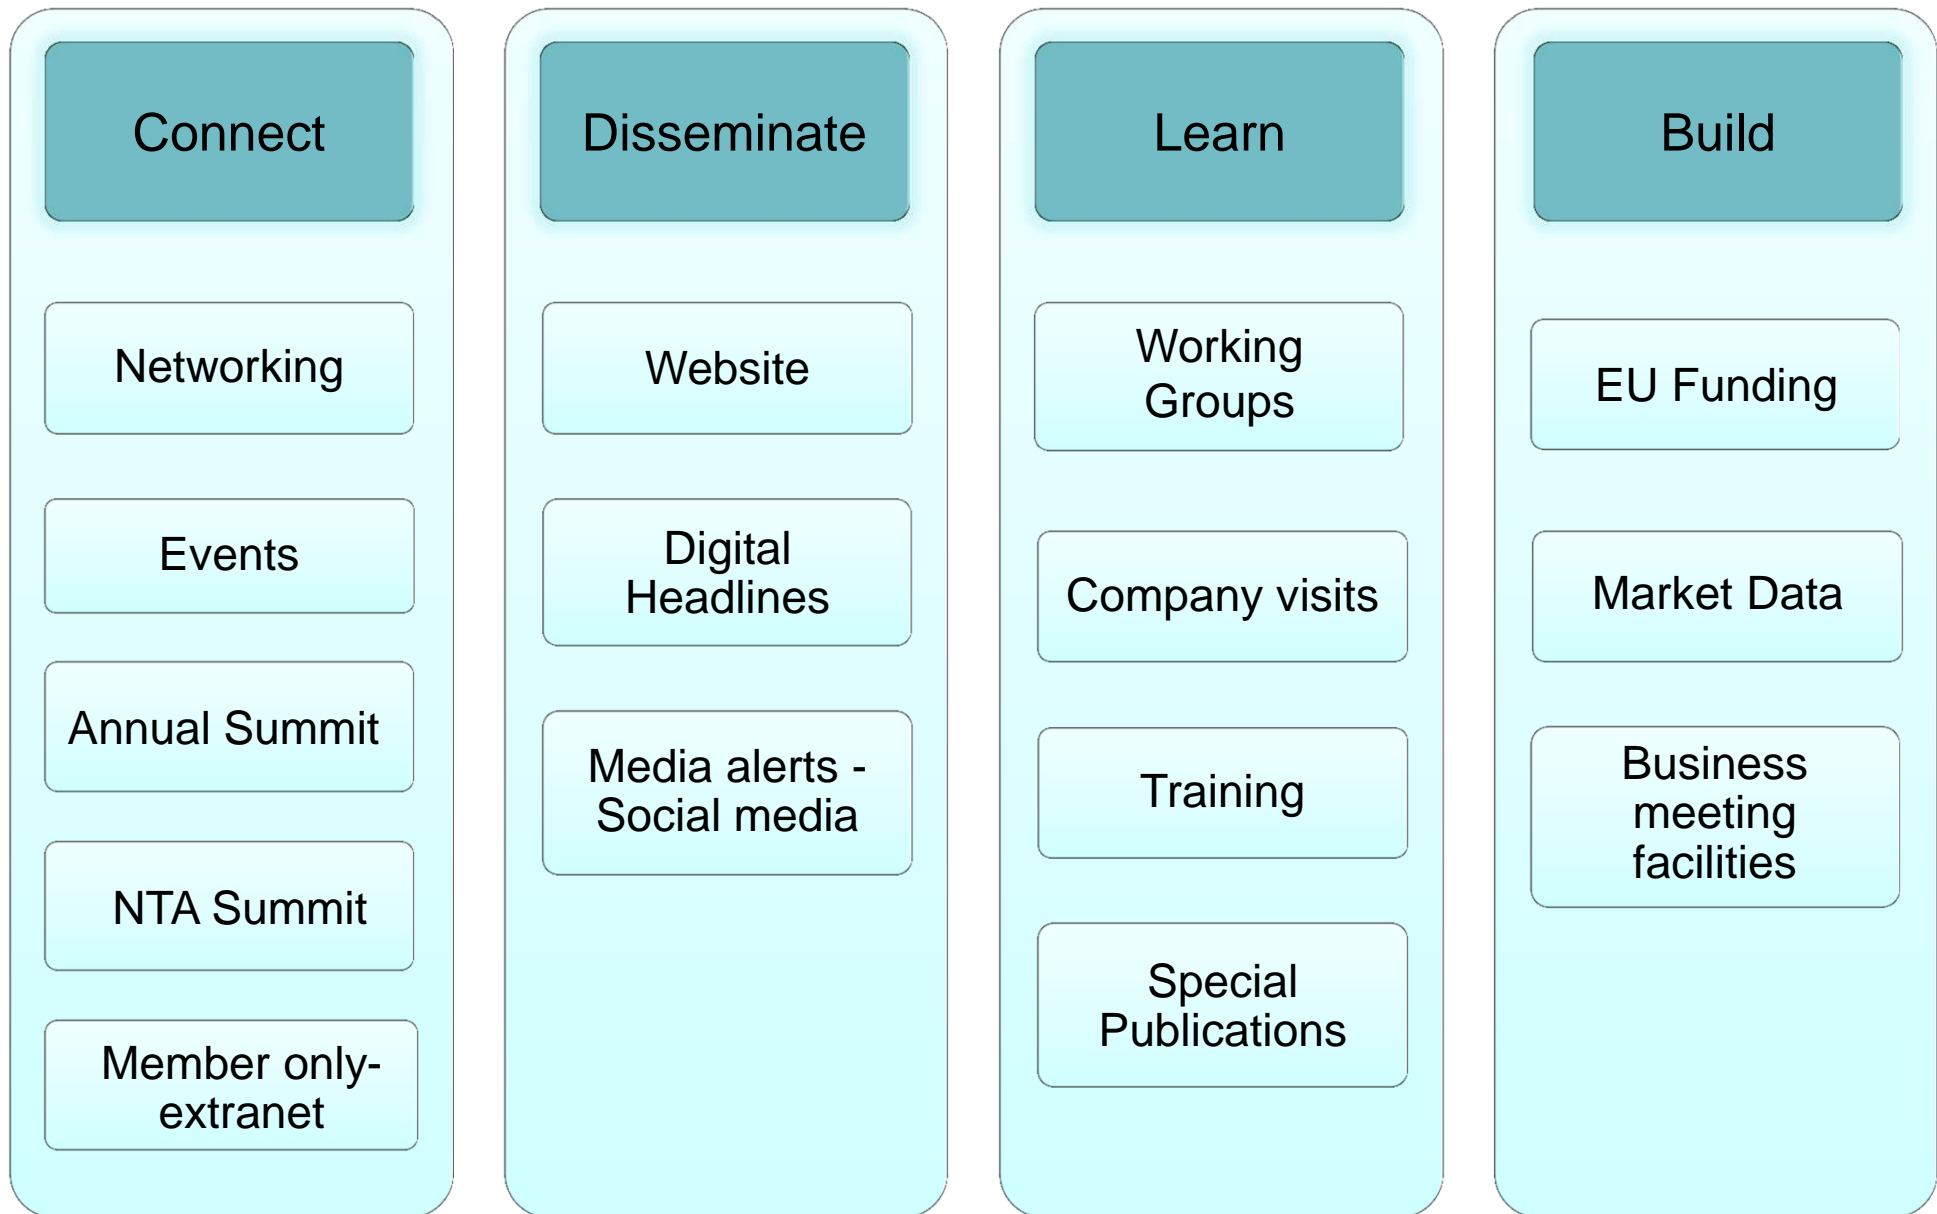

Seeks to improve the business environment for sectors and to promote the Digital Technology Industry's contribution to economic growth and social progress in the EU.

Participates in the development and implementation of EU policies by helping European governments and institutions to understand future technology trends and how digital technologies can contribute to sustain economic performance .

# Benefits & Value Proposition

A wide range of multinational companies (57) and national trade associations (33)...

Which represent more than 10,000 businesses and two million employees...

And generate revenues of over 1,000 billion Euros ...

Thus bringing credibility and legitimacy to the organisation...

Which has become the voice of the European Digital Technology Industry.

Chair: Damir Filipovic, Samsung

Vice Chair: Jean Laurens, HP - Nicolas Schifano, Microsoft

## Vision of the Present and a look towards the future

Transmedia Storytelling used at school for learning

<http://www.inanimatealice.com/>

<http://www.youtube.com/watch?v=vMp8ggr3iC0>

EBooks and Audio & Video EBooks

# Bulgaria Example

## Ciela

### **Professional target**

Internet based products, professionals prefer SW locally on their computer and Internet updates.

### **Leisure target**

Books published both electronically and in the traditional way.

Consumers still prefer printed versions.

In 5-10 years there will be a total shift to the eBook

**How will the book look like in the next Future?**

**Will traditional paper book disappear? How long will it take for this shift?**

**Which kind of Business model would rise in the future?**

 The future is unpredictable  
ICT will continue to advance, empower and transform every aspect of our life.

“If I were afforded one piece of criticism, I would say that traditional newspapers have missed this opportunity [the smartphone] to “reset” our rapport to reading” (Liberation Next, 10<sup>th</sup> June 2013)

# Few Dreaming Examples

Imagine the next eBook generation where you will be able to hear the background description, smell the landscape and different aromas.

3D storytelling eBook in particular for Children

Reading books from your sunglasses

eBooks that smell as real books

EBook community and social network

Rethink education, where children will be able to work and study using tablets, eBooks and apps.

Thank you for your attention
