

WP7: Validation

University Innsbruck (UIBK)

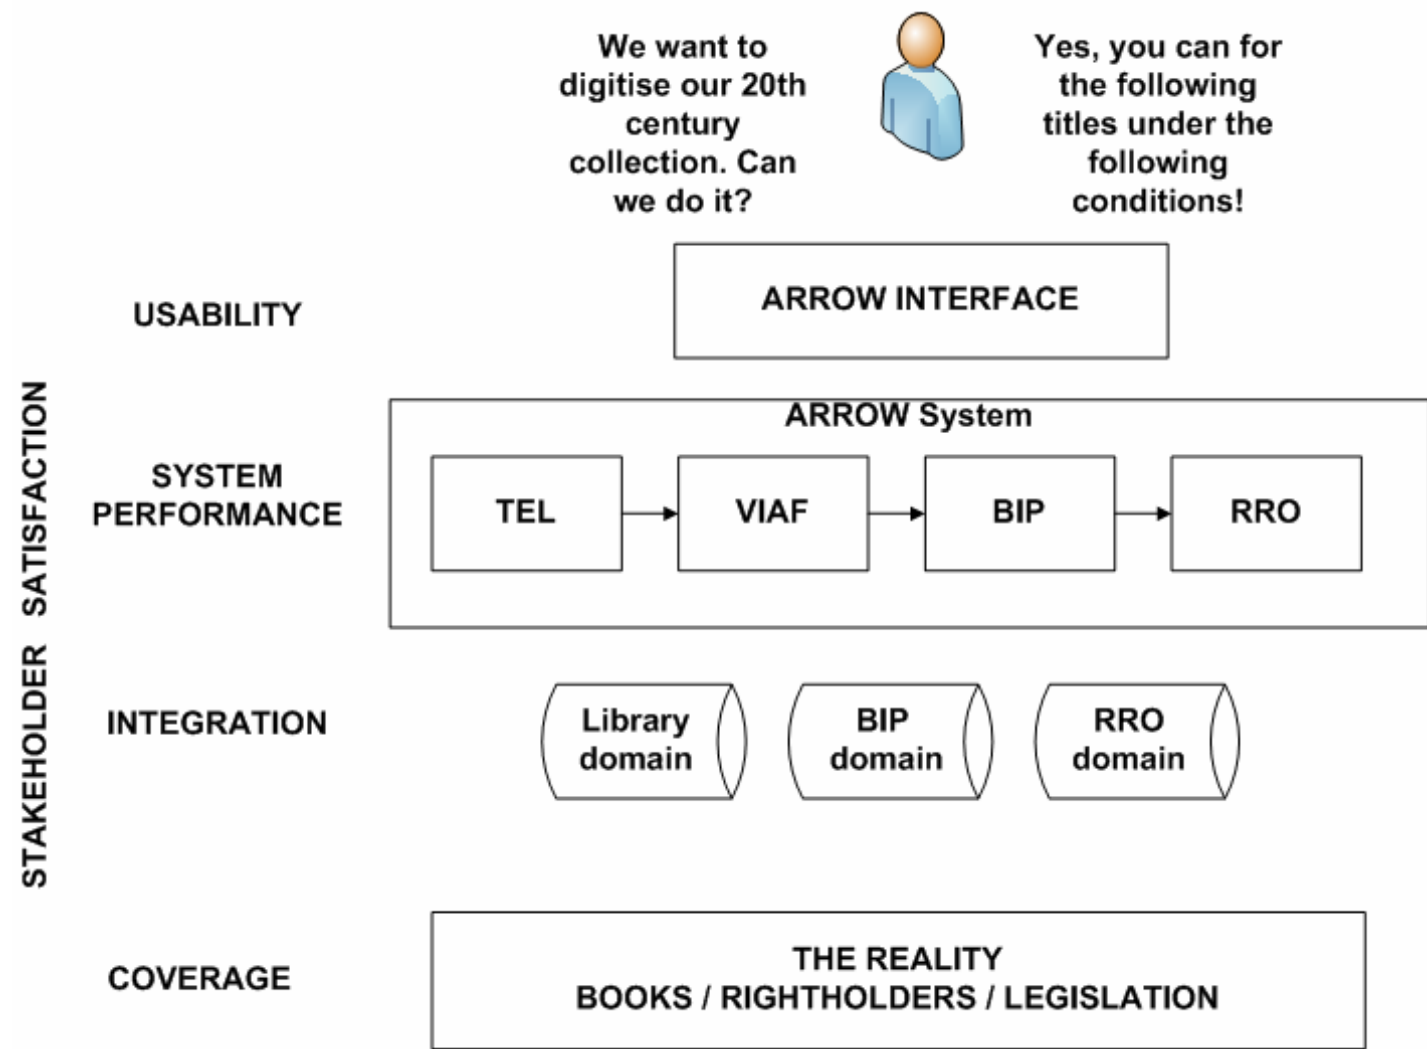

GM meeting, Brussels 20.03.2012

www.arrow-net.eu

Objectives and Tasks

- T7.1: Validation roadmap
 - define national roadmap
 - create methods and tools for validation
 - set benchmarks
 - use input from national contact points
 - reuse data, tools, benchmarks, results from ARROW
 - Deliverable: M18 (= September 2012)

ARROW – from the validation view

Objectives and Tasks

- T7.2. Internal testing
 - “System approach”
 - Improvements of the system
 - New functionality
 - New workflows
 - Testing could take place on basis of data already used in ARROW and/or new data
 - Partners without national workflow could use national solutions from other countries (e.g. Germany)

Objectives and Tasks

- T7.3 Metadata enrichment (new registries)
 - “National approach”
 - Evaluation of new registries
 - Data conversion
 - Inclusion of national databases
 - Consistency of databases
 - Responsibility stays mainly with WP5

Objectives and Tasks

- T7.4 Stakeholder validation
 - Overall validation from the point of view of stakeholders
 - Full adopters vs. partial adopters
 - Different communities and different interests
 - Final deliverable: M30 (= September 2013)

Challenges, open issues

- Complex situation
 - ▣ so many countries, so many workflows, so many data sources, so many interest groups
 - ▣ work closely together with technical partners and national contact points (resp. FEP als coordinator of national contact points)
- ARROW system
 - ▣ Further development: Shall it play a role within the validation, and if yes, which one? Reviewers might ask and use ARROW as benchmark for ARROW+
 - ▣ Clarify the situation during first review
- Still images
 - ▣ A completely new situation – we are dependent on plans and decisions which will be made during the next months
 - ▣ validation plan will be decided together with EVA, CEPIC
- Design of new tools for right holder involvement
 - ▣ New tools shall allow that right holders claim/declare their rights directly
 - ▣ Test scenario for large scale digitisation of “German Dissertations” (UIBK)
 - ▣ A decision will soon be made on this issue

Person months in WP7

□ Participants:

▣ technical partners

UIBK (16), AIE (9), FEP (12), MVB (9), CEDRO (2)

▣ new partners

EVA: 3	CEPIC: 3
ICCU: 2	ICLA: 3
HPBA: 3	LLA: 3
BOEK: 1	APEL: 3
PK: 3	CIELA: 3
LBG: 2	OSDEL: 2
MDA: 1	

A horizontal bar with an orange square on the left and a blue rectangle on the right.
